# Smart Security Solutions for Safer, Smoother Fire Department Operations

Safety Region Haaglanden, VRH

VRH partnered with us to deploy our IPROTECT Access Control solution across 22 local fire department locations in Haaglanden, NL. This collaboration aimed to enhance security, streamline operations, and provide scalable, future-proof technology solutions.

A word from VRH

"Standing by our motto, "Do now what is needed later," we needed a system that's fast, secure, consistently reliable, and anticipates future needs across all our stations. The IPROTECT solution delivers exactly that — seamless access control and clear communication. It's a system built for action, keeping us ready every day."

Bob van Apeldoorn  
Functional Facility Administrator

A word from TKH Security

"Our long-standing collaboration with VRH has transformed fire department operations around Haaglanden delivering unmatched security and efficiency. By integrating future-ready solutions like IPROTECT AC, we empowered them with seamless access control, reliable intercom systems, and intelligent video management—all while ensuring adaptability for the challenges of tomorrow."
